

Manufactured by RAK Ceramics  
*for domestic or commercial applications, internal or external use*

The largest slab sizes in the industry!

**20mm x 1795mm x 1195mm**

- Less expensive than marble, granite or quartz
- Almost impossible to scratch
- Virtually stain proof
- No thermal shock, our slabs are already fired at 1200 degrees
- No fading from sunlight
- Almost impervious to liquid absorption at 0.05%

The perfect choice for

- staircases • facades • reception desks • worktops
- vanity units • bath surrounds
