

Specialist Fireclay Sink Collection 2011

Company profile

RAK Ceramics is the world's largest manufacturer of high quality ceramic and porcelain tiles, sanitaryware and fireclay kitchen sinks. The company can be considered unique in its ability to create excellent quality products to the very latest fashion designs using the most advanced technical processes available worldwide.

The main headquarters and manufacturing plant for RAK Ceramics is situated in Ras-Al-Khaimah in the United Arab Emirates. Established in 1991, the company has grown at an astonishing rate, now occupying an ever-expanding site in excess of 2 million m² and producing 3.5 million pieces of sanitaryware per annum.

RAK Ceramics exports to 150 countries worldwide and has other manufacturing plants in China, Bangladesh, India and Sudan to satisfy the demands of these local markets, with global production of tiles over 360,000 m² per day.

The company operates an accredited quality management system that serves as a framework for managing its operations, including continuous compliance, for its manufacturing and products. RAK Ceramics is a ISO 9001 : 2008 & ISO 14001 : 2004 certified organisation.

Fireclays Sinks Information

RAK Ceramics fireclay sinks have been used in commercial as well as domestic kitchens and utility rooms, where both practicality and inspirational design are required. Fired at an intense heat to fuse the glaze, this durable, non-porous material produces a glossy, hard finish. Available in various formats suitable for under, over and surface-mounting along with finishes in luxurious white glaze and rich black.

RAK's extensive range of sinks will provide specifiers of commercial and domestic kitchens with a high degree of design flexibility.

Certification

WRAS (Water Regulations Approved Scheme) approved accreditation.

Manufactured under ISO 9001:2000 quality management system.

Business Superbrand Award 2009 – validating RAK's genuine commitment to deliver high quality and trend setting ceramic products.

RAK Ceramics colour brochures provide full details on the entire range, including inspirational examples of how porcelain and ceramic products can be used collaboratively for great effect.

Inset or undermounted Sinks

Our new Gourmet Sink 16 and 17 models are designed for the contemporary space saving kitchen. They can be fitted as over or undermounted options to maximise your work surface.

Gourmet Sink 16 Overmounted

Gourmet Sink 16, an incredible all-in-one ceramic undermounted sink which is especially designed for small luxury kitchens.

You don't need to use your worktops at all - just use the optional plate and cutlery drainer along with the protector and all your sink procedures can be done in a 60cm square space.

1.25inch polished chrome on brass Clic Clac basin waste suited to Laboratory Sinks 1, 2, 3 and 4

Overflow Cover

Code: O/FCOVER

Quality chrome on brass cast overflow cover

Brassware

Taps and mixing valves are manufactured from Kludi RAK which are designed to conform with Water Regulations giving adequate flow rates from traditional UK unvented systems whilst being pressure rated to suit mains, combi and unvented supplies.

Some taps require more hot water pressure than others in order to achieve the same flow rate. A pressurised water heater system will provide enough water pressure for any of our tap ranges. If unsure, please contact your plumber for professional advice. Non metallic materials coming into contact with potable water are chosen for their resistance to support of microbial growth. All our brassware fittings are coated in durable chrome plate.

Testing

Our rigorous processes and efficient operation, along with the size of our manufacturing, enables us to deliver consistency of quality and value for our Fireclay sinks.

Manufacturing quality

Quality standard BS EN ISO 9001

Excellence is a way of life at RAK Ceramics. As a global leader in the industry we are committed to providing the highest quality products to our customers. RAK Ceramics believes in the principle that business organizations depend on their customers and we are committed to not only meeting our customers' needs but also to surpassing their expectations.

RAK Ceramics has been assessed by Bureau Veritas Certification UK and has been granted approval under the terms of the scheme for Supplier Quality Management system to ISO 9001:2000.
